Comments Regarding Pricing Strategy		
The subject is a Single-family home located in a suburban area on a lot of 1 acres that conforms well with the other homes in that area. Due to the lack of comps in the subject immediate neighborhood, it was necessary to expand the mile up to 1 and used comparables that exceed sub-style, bed bath count, GLA, and lot size guidelines. They are considered to be the best available at the time of the inspection & good indicators of market value. I was forced to exceed lot size, gla guidelines due to the lack of comps available within the subject neighborhood. I strongly believe that the comps I have used in this report are good and they emphasize the actual market value of the subject. Closest comparable used, Due to lack of similar comparable, had to expand search by distance in order to find comps that were suitable for analysis when compared to subject property.
